Minimum Requirements

- **Secure interior space** – 35 sf per child is required for all floor space (not including work areas, kitchens, bathrooms, corridors, storage, etc.) by State of Maryland regulations. For the ELC size today, that requirement is about 3,400 sf and we have put in place almost double that.
- **Other unique building features** (such as the child size toilets, multiple food preparation areas in classrooms, etc.)
- **Secure outdoor play area** – 75 sf x half of capacity is required by State of Maryland regulations. For ELC size today, that requirement is about 4,000 sf and we have put in place a much larger play area.
- **Parking** – 1 parking space per 4 employees is required by Baltimore zoning.
- **Safe and secure drop off and entryway**
