

Johns Hopkins University

# Childcare Voucher Program

File claims quickly. Get a claim processed in two business days.

Johns Hopkins University supports its employees by providing childcare vouchers that can be used to pay for center-based or in-home care.

When you pay for eligible expenses out of pocket, filing a claim lets you receive reimbursement and take advantage of your childcare voucher program benefits. With WEX, the claim filing process is quick and simple. The Benefits Mobile App by WEX and your online account let you file a claim with just a few taps or clicks.

**Note:** You may be enrolled in a Dependent Care FSA which is funded by your payroll deduction. The Childcare Voucher Program is funded by Johns Hopkins University. If you are enrolled in both your Dependent Care FSA and the Childcare Voucher Program will be separate benefits in your online account or Benefits Mobile App. The maximum election for both plans cumulative is \$5,000. You will need to file claims separately for each benefit and may still need to submit documentation via our mobile app or online account on those claims.

## The Easiest Ways To File Claims

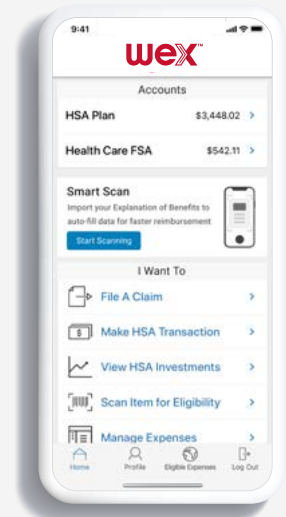

### Benefits Mobile App

You can file claims and submit documentation in seconds using the Benefits Mobile App. Our app is the quickest and easiest method for filing claims and submitting documentation. Just use your phone's camera to take a picture of documentation and upload it on the spot.

### Online Account

You can also file claims through your online account by clicking the "File A Claim" button within the "I Want To" menu on the homepage of your online account.

**Note:** The Childcare Voucher Program is not eligible for the Out-of-Pocket Reimbursement Request Form and must be completed online or through the Benefits Mobile App.

Download the app for free on apple and android smartphones and tablets.
