Allstate Identity Protection Pro Plus

Comprehensive monitoring and alerts

Our proprietary monitoring platform detects high-risk activity to provide rapid alerts, so you can detect fraud at its earliest sign, enabling quick restoration for minimal damage and stress.

High-risk transaction monitoring

We send alerts for non-credit-based transactions like student loan activity and medical billing.

Financial activity monitoring

Alerts triggered from sources such as bank accounts, thresholds, credit and debit cards, 401(k)s, and other investment accounts help you take control of your finances.

Social media monitoring

Keep tabs on social accounts for everyone in your family, with monitoring for vulgarity, threats, explicit content, violence, and cyberbullying. Now, you can add your YouTube accounts and we'll monitor comments for questionable content. We even monitor for social media account takeovers that could lead to costly reputation damage.

IP address monitoring

We look for malicious use of your IP addresses. IP addresses may contribute to a profile of an individual, which — if compromised — can lead to identity theft.

Lost wallet assistance

You can store critical information in your secure portal, which conveniently holds important information from credit cards, credentials, and documents. Should you lose your wallet, you'll be able to easily access and replace the contents.
